HOLLYWOOD

— A MONUMENT TO THE
PROGRESS OF AMERICA'S
MODERN ART OF ALL ARTS

cinematography

THE arts of the races from the beginning of time have outlived their masters and survived the fall of empires. Each race from the beginning has found expression of its soul in some particular art form. The soul of Greece still lives in the still white beauty of the Venus de Milo and of the columns of the Parthenon; the soul of Italy breathes in the marvels of color and composition of her great painters; the musical triumphs of Hungary and old Germany are immortal and England's soul speaks through Shakespeare's verse. And now America, drawing from all arts with its marvelous ingenuity and artistic skill, expresses the soul of its teeming life through the motion picture. More so than in any of the contributory arts, the story is the foundation of the motion picture, and it is to the encouragement and development of the screen writers of the future that his institution is dedicated, with its seat of operation in Hollywood, Film Capital of the World.

TO THE PUBLIC—Owing to the increased expense occasioned by the enlarged orchestra and the engagement of Dr. Hertz, the management is compelled to make a nominal charge for the program. Will you bring along five cents for the program fund.
—THE MANAGEMENT.

Wherever you go, you will find happy Buick owners, because the Buick has made good under all kinds of road conditions and in all kinds of weather.

Equipped with the famous Buick Valve-in-Head motor, easily proven the most economical in operation, the Buick Velvet Disc Clutch, easily demonstrated to be the easiest to operate, the Buick patented "one-finger" transmission, so easy to operate that the gears can be shifted with one finger; the Buick patented rear axle, safe and husky; the Buick torsion drive, not through the springs; the new Buick is equipped for any kind of service.

Over desert, mountain or boulevard you will find that the new Buick's performance has made it truly the standard of comparison.

Broken Children

A financial emergency exists in the Children's Hospital of Los Angeles. Many innocent, sick and crippled children need help. It occurs to us that people now joyously planning vacations might be glad to buy a \$5.00 (or more) membership in the hospital before going away, as a means of helping the broken children who can't have a vacation and who want only help for their poor little bodies. The Children's Hospital is at Vermont Avenue and Sunset Boulevard—Phone 598121. Immediate action is necessary.

Bureau of Power and Light Department of Public Service

CITY OF LOS ANGELES

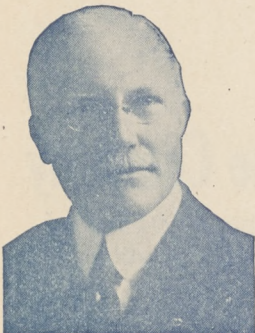

Hollywood, in common with many other sections of the city, is now receiving electric service from the Municipal Bureau of Power and Light, following the purchase by the city on May 15, 1922, of the Edison distributing system in Los Angeles.

Of the total amount being expended this year by the Department of Public Service for the general improvement of the city's electric system, more than \$3,000,000 are being devoted to the extension and betterment of service in Los Angeles. These improvements are in line with the established policy of the Department of Public Service to give Los Angeles

*the highest quality of service at the lowest
possible rates*

Your Presence Here Reveals Your Love of Good Music

The musical discrimination that drew you here to listen to this splendid orchestra, places you in the class that this house is striving worthily to serve—the class of people whose musical tastes are high, whose ideals can be satisfied only by instruments of supreme quality.

As such you will find keen interest and enjoyment in a visit to this establishment where are assembled some of the finest musical instruments the world affords, foremost among which is the

Mason & Hamlin

Pianoforte

Our line of pianos, confined strictly to instruments of integrity whatever the price, starts at \$850 for grands, and \$395 for uprights. Satisfactory terms may be arranged when desired.

You will also find here reproducing pianos and playerpianos of most advanced developments.
